

BigRep ONE

The BigRep ONE has the most substantial FDM build volume on the market, so you never have to scale down your designs. The ONE works perfectly in automotive or aerospace industries, as well as entertainment, or concept modeling.

With a capacity of over one cubic meter, the BigRep ONE can bring all your big ideas to life.

Main technical parameters

Technology	Fused Deposition Modeling
Workspace	1005 x 1005 x 1005 mm
Layer thickness	0,1 – 1,4 mm
Material	PLA
Color of product	optional
